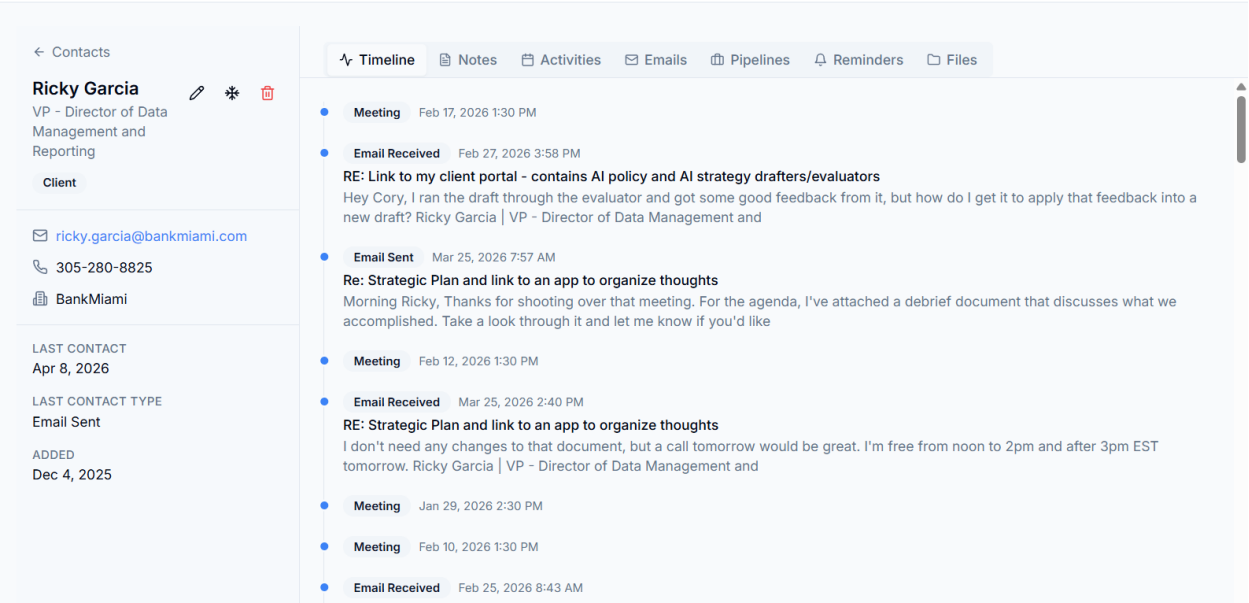
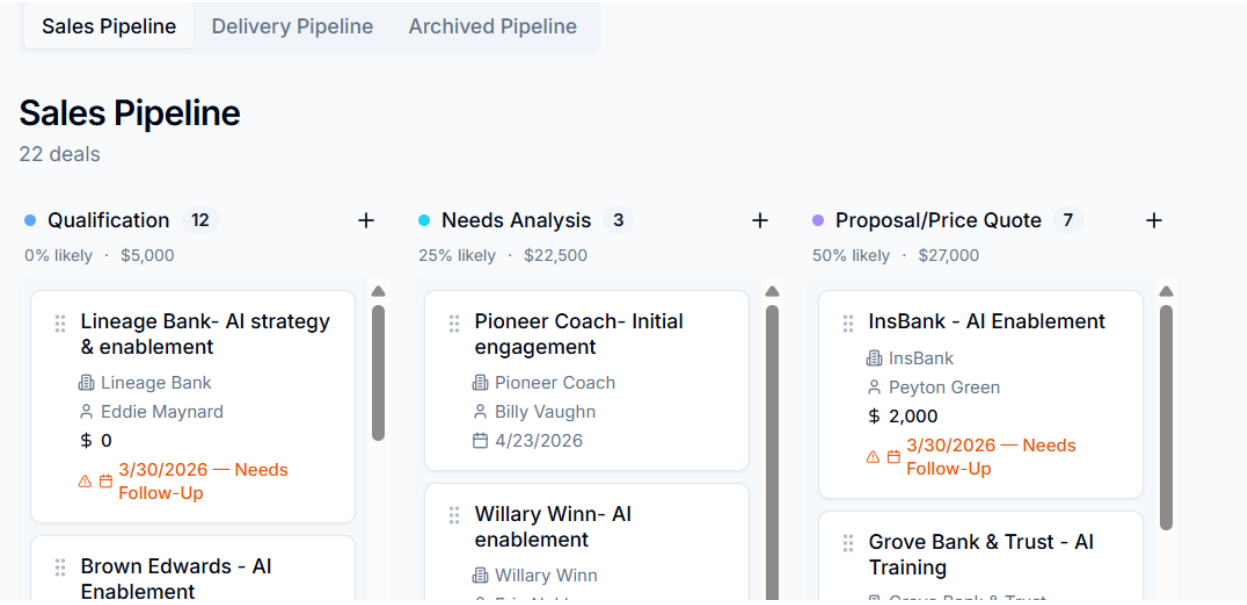
When I am viewing the Timeline, Activities, and Emails, I need them to be shown in time order, with the most recent being at the top of the page, showing in reverse chronological order





When I try to view pipeline detail on the Pipelines page by clicking on the new of the deal, it goes to a blank page. I want to be able to view the details of this pipeline deal: What status is the contract in, a follow up date, details on the scope of the project like timeframe of engagement and how many invoices there should be, and a place to add Word docs and PDFs associated with the engagement.
